FAIKA KHAN

Frontend Developer | React.js | JavaScript | TypeScript | Tailwind CSS

Mumbai, India | +91-9136317738 | workonprofession06@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Frontend Developer with practical experience building responsive and interactive web applications using React 18, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, and Vite. Skilled in developing reusable React components, dynamic data-driven dashboards, tables, charts, forms, modals, and mobile-first interfaces with REST API integration, state management, and component-based architecture. Contributed to 15+ websites and web applications across business, education, and AI-focused domains; foundational knowledge of Python, Django, SQL, and MySQL.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend:	React.js, Tailwind CSS, Bootstrap, Vite, Framer Motion, Responsive Web Design, Mobile-First Dev, UI/UX Dev
Development:	API Integration, REST APIs, State Management, Conditional Rendering, Form Handling, Form Validation, CRUD Interfaces
Tools:	Git, GitHub, VS Code, WordPress
Backend:	Python, Django, SQL, MySQL (foundational)

PROFESSIONAL EXPERIENCE

Junior Frontend Developer

1 Jul 2026 – 31 Aug 2026

Ownmor Global Private Limited | Mumbai, India

- Developed and enhanced responsive frontend interfaces across a multi-module distributor platform covering Dashboard, Referral Management, Leads, KYC & Banking, Shop & Products, Orders & Returns, Network Management, Rank & Achievement, My Wallet, Earnings & Reports, Learning, AI Assistant, and AI Manager — using React 18, TypeScript 5, Vite 5, Tailwind CSS 3, JavaScript, HTML5, and CSS3.
- Translated design requirements into clean, responsive interface code, delivering UI/UX improvements across multiple pages and components while following modern React development practices and maintaining visual consistency.
- Built and maintained reusable React components including dashboard cards, data tables, charts, forms, filters, modals, drawers, and navigation elements for consistent and scalable UI across all platform modules.
- Implemented state management, dynamic data rendering, conditional rendering, form handling, form validation, CRUD interfaces, and REST API-integrated frontend workflows.
- Used Framer Motion for smooth UI animations and transitions; applied responsive layouts across mobile, tablet, laptop, and desktop using Tailwind CSS 3, Flexbox, and CSS Grid; managed code with Git and GitHub.

PROJECTS

Personal Portfolio Website | *HTML5, CSS3, JavaScript*

- Developed a responsive multi-section portfolio featuring Projects, Experience, Case Studies, and Certifications with custom CSS animations, JavaScript-driven interactions, and mobile-first UI.

AKT Luxury Website | *React.js, JavaScript, HTML5, CSS3, Bootstrap*

- Built a premium responsive business website using React.js and Bootstrap with reusable UI sections, responsive navigation, structured page layouts, and cross-device compatibility.

ListRace Website | *HTML5, CSS3, JavaScript, Bootstrap*

- Developed a responsive website using HTML5, CSS3, JavaScript, and Bootstrap with structured layouts, mobile-first design, interactive UI components, and cross-device compatible interfaces.

Recycle Karo Website | *HTML5, CSS3, JavaScript, Bootstrap*

- Designed and built a responsive, mobile-friendly website using HTML5, CSS3, JavaScript, and Bootstrap with interactive UI elements, clean structured layouts, and a consistent cross-device user experience.

Livizon Innovation | *React.js, HTML5, CSS3, JavaScript, Bootstrap*

- Developed a responsive business website using React.js, Bootstrap, HTML5, CSS3, and JavaScript with reusable UI components, mobile-first layouts, interactive frontend interfaces, and cross-device compatibility.

Smart Study AI — Study Planner & Notes Generator | *Python, Django, SQL, HTML5, CSS3, Bootstrap*

- Developed an AI-powered study application using Python, Django, and SQL with interactive HTML5/CSS3/Bootstrap interfaces, authentication, study planning, and automated note-generation functionality.

EDUCATION

Bachelor of Science in Computer Science

Jun 2023 – Jun 2026

Shri GPM Degree College, Mumbai

INTERNSHIP EXPERIENCE

Frontend Developer Intern

Jul 2024 – Mar 2026

Mumbai Coding Club, Mumbai, India

- Designed and developed 15+ responsive, mobile-first websites and web applications using HTML5, CSS3, JavaScript, Bootstrap, and WordPress, delivering interactive UI components, navigation, forms, and structured layouts across business, education, and nonprofit client projects.
- Implemented CSS animations, JavaScript-driven interactions, and reusable frontend components to create polished, consistent user interfaces, while applying front-end debugging to resolve layout, responsiveness, and cross-browser compatibility issues across all projects.
- Enhanced and customized WordPress websites with HTML5, CSS3, and JavaScript to improve responsive layouts, visual consistency, and overall frontend user experience for multiple clients.
- Developed foundational backend knowledge in Python, Django, SQL, and MySQL through project-based applications covering authentication, CRUD operations, and backend-to-frontend data handling — while specializing in frontend development throughout the internship.
